General Information

Language of instruction: English

Main field of studies
Business Administration

Depth of study relative to the degree requirements
A1N, Second cycle, has only first-cycle course/s as entry requirements

Learning outcomes
A passing grade on the course will be awarded to students who:

Knowledge and understanding
- Understand the development and establishment of accounting standards.
- Understand why differences in accounting remains despite efforts to harmonize.
- Can show knowledge about important actors and sources of information in the international area of accounting.
- Can show insight into the political processes surrounding international standard-setting.
- Can demonstrate developed the ability to interpret accounting information from companies in different countries, to be able to make comparisons.

Skills and abilities
• Are able to present acquired knowledge, orally and in written reports, in an interesting and clear manner for both theoretically and practically orientated listeners and readers.

• Have acquired the ability to independently search for information necessary to understand the development of accounting internationally.

Judgement and approach
• Are able to critically evaluate different approaches to harmonization.

• Are able to critically evaluate the correspondence between newly developed international accounting standards and the conceptual frameworks employed by the standard-setters.

• Are able to examine the correspondence between different accounting norms and practices and fundamental accounting principles.

Course content
The objective of the course is to examine and analyze accounting practices and norms in different countries, and to analyze differences between the countries. The objective is also to analyze and compare the work of leading accounting standard-setting bodies with an international influence such as the EC, the IASB (The International Accounting Standards Board) and the FASB (The Financial Accounting Standards Board).

The similarities and differences in views on accounting purposes and in accounting solutions between different countries are examined. Special attention is given to different institutional structures and historical traditions between countries, and its effect on accounting development and the implementation of international standards.

The harmonization difficulties are in focus. The work of the IASB to harmonize accounting internationally, and especially the implementation of international standards in a national context, is examined. Special attention is paid to the effort by the EC Commission to harmonize accounting in Europe, as well as the influence of US accounting on the rest of the world. Also accounting in countries outside Western Europe and US are examined, for example the transformation of accounting in Eastern Europe and Russia, accentuated by the change from planned economies to market economies.

Course design
The course is conducted in the form of lectures and discussions. The examination consists of written reports and presentations by students in groups. In the end of the course there is a final individual examination, covering the reading material and lectures.

Assessment
Subcourses that are part of this course can be found in an appendix at the end of this document.

Grades

Marking scale: Fail, E, D, C, B, A.

**Grading scale**

At the School of Economics and Management grades are awarded in accordance with a criterion-based grading scale A-U (A-F). Students have to receive a grade of E or higher in order to pass a course.

<table>
<thead>
<tr>
<th>Grade, characteristic</th>
<th>Points/percentage of total score, criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>A-Excellent</td>
<td>100-85, A distinguished result that is excellent with regard to the following aspects – theoretical depth, practical relevance, analytical ability and independent thought.</td>
</tr>
<tr>
<td>B-Very good</td>
<td>84-75, A very good result with regard to the above mentioned aspects.</td>
</tr>
<tr>
<td>C-Good</td>
<td>74-65, The result is of a good standard with regard to the above mentioned aspects and lives up to expectations.</td>
</tr>
<tr>
<td>D-Satisfactory</td>
<td>64-55, The result is of a satisfactory standard with regard to the above mentioned aspects and lives up to expectations.</td>
</tr>
<tr>
<td>E-Sufficient</td>
<td>54-50, The result satisfies the minimum requirements with regard to the above mentioned aspects, but not more.</td>
</tr>
<tr>
<td>U/F-Fail</td>
<td>49-0, The result does not meet the minimum requirements with regard to the above mentioned aspects.</td>
</tr>
