

School of Economics and Management

STAH11, Statistics: Special Assignment, 15 credits

Statistik: Kandidatuppsats, 15 högskolepoäng

First Cycle / Grundnivå

Details of approval

The syllabus is an old version, approved by The Board of the Department of Statistics on 2018-12-03 and was valid from 2019-09-02, autumn semester 2019.

General Information

The course is an independent project in statistics in the first-cycle level and normally forms the final course in the Bachelor programme in statistics, a Bachelor thesis. The course is mandatory for receiving a Degree of Bachelor in Statistics. The course is as mandatory subcourse in STAH01 B.A. Course.

Depending on the supervisor, supervision may be given in English.

Main field of studies

Statistics

Depth of study relative to the degree requirements

G2E, First cycle, has at least 60 credits in first-cycle course/s as entry requirements, contains degree project for BA/BSc

Learning outcomes

This course aims at training the student in independently using knowledge and experience from previous courses in statistics, to elucidate a general issue or problem. This will lead to a deeper understanding of theoretical topics covered in previous courses, through integration and application of knowledge in the thesis work.

Course design

Assessment

The examiner, in consultation with Disability Support Services, may deviate from the regular form of examination in order to provide a permanently disabled student with a form of examination equivalent to that of a student without a disability.

Subcourses that are part of this course can be found in an appendix at the end of this document.
