

**SMMN10, Service Management: Theory of Science and
Methodology in Service Management, 15 högskolepoäng**
*Service Management: Theory of Science and Methodology in Service
Management, 15 credits*
Avancerad nivå / Second Cycle

Fastställande

Kursplanen är fastställd av Styrelsen för institutionen för service management 2012-11-13 och senast reviderad 2013-02-08 av Styrelsen för institutionen för service management och tjänstevetenskap. Den reviderade kursplanen gäller från och med 2013-02-08, höstterminen 2013.

Allmänna uppgifter

The course is offered during the second term within the Master of Science Programme (120 credits) in Service Management. The course is to be directed towards the student's specialisation within the programme.

Undervisningsspråk: Engelska

Huvudområde

Service management

Fördjupning

A1N, Avancerad nivå, har endast kurs/er på grundnivå som förkunskapskrav

Kursens mål

On completion of the course, the student shall

- demonstrate a theoretical and practical understanding of traditional and contemporary critical perspectives in the social sciences
- be able to efficiently apply critical perspectives to tourism and hospitality, logistics and retail research and the tourism and hospitality, logistics and retail sectors
- be able to critically assess scientific research articles and other texts (e.g. public policies or corporate strategies), primarily within the field of tourism and hospitality, logistics and retail
- be able to critically assess, managerial and non-managerial practices within the field of tourism and hospitality, logistics or retail (internship)

Kursens innehåll

The general purpose is that the student at the end of the course will have gained a theoretical and practical knowledge about the nature and practice of a critical approach to tourism and hospitality, logistics and retail research. The student should be able to understand how tourism and hospitality, logistics and retail research can be analyzed from various critical perspectives.

The course is divided into modules and includes an internship. Examples of modules are:

- Introduction to critique in the social sciences

This module is an introduction to traditional and contemporary critical perspectives in the social sciences.

- Macro-critical perspectives

Focusing on, for example mobility and ecology, this module features critical perspectives of particular relevance for macro-level studies in tourism and hospitality, logistics and retail.

- Meso-critical perspectives

Focusing on, for example critical management studies, this module features critical perspectives of particular relevance for meso-level studies (e.g., studies of companies, nonprofit or public organizations) in tourism and hospitality, logistics and retail.

- Micro-critical perspectives

Focusing on, for example ethics, this module features critical perspectives of particular relevance for micro-level studies (e.g., studies of groups or individuals) in tourism and hospitality, logistics and retail.

- Internship: The course includes a mandatory part-time internship. The internship can be conducted in parallel with or directly after the other modules.

Kursens genomförande

Teaching consists of lectures, interactive seminars, workshops and an internship.

Kursens examination

The examination is of both oral and written nature, and continuous throughout the course. In more detail the examination is divided into an internship report (pass/not pass), discussion at specific seminars (pass/not pass), an individual intermediary home exam and a final individual home exam (both following the A-F scale).

Examinations are scheduled during the academic year only. Two opportunities for re-examination are offered after the end of the course. The student has the right to participate in examinations during the following terms, but in accordance with the course regulations that apply at the time.

Prov/moment för denna kurs finns i en bilaga i slutet av dokumentet.

Betyg

Betygsskalan omfattar betygsgraderna Underkänt, E, D, C, B, A.

The highest grade is A and the lowest passing grade is E. The grade for a non-passing result is Fail.

The student's performance is assessed with reference to the learning outcomes of the course. For the grade of E the student must show acceptable results. For the grade of D the student must show satisfactory results. For the grade of C the student must show good results. For the grade of B the student must show very good results. For the grade of A the student must show excellent results. For the grade of Fail the student must have shown unacceptable results.

The internship report is exempted from the grading scale above. The grade awarded for the internship report is Pass or Fail. For the grade of Pass the student must show acceptable results. For the grade of Fail the student must have shown unacceptable results.

At the start of the course students are informed about the learning outcomes stated in the syllabus and about the grading scale and how it is applied in the course.

Förkunskapskrav

To be eligible for the course the student must have at least 30 credits, including 15 credits in research method and/or theory of science, within the Master of Science Programme in Service Management.
