Kursens mål

On completion of the course, the student shall be able to

- demonstrate, in writing and orally, the theoretical understanding of the creation of different kinds of value in tourism and hospitality contexts,
- discuss and critically reflect upon the relationship between sustainability and innovation,
- independently formulate research questions with theoretical as well as practical relevance for value creation, innovation and sustainability in tourism and hospitality contexts,
- independently write critical reviews of current theoretical and methodological research in relation to a chosen field of research,
- apply and critically use appropriate theories and study methods in an independent research project,
- communicate research results to academics as well as practitioners.

Kursens innehåll

Tourism and hospitality are innovation-intensive social businesses. Within this field of study, the course focuses on questions related to innovation and sustainability. The course is to a great degree based on field- and group work, in order to analyse various ways of value-creation within the field. This allows for the development of both academic and organisational, as well as of communicative fields.

The course is divided into four parts:

- Meetings with various practitioners in the field.
- Two problem-based learning cases.
- Independent project work and reflections of the research process.
- Planning and participation in a final workshop.

Kursens genomförande

Teaching consists of lectures, seminars, fieldwork, study visits, individual work and a final workshop organised by the students. Participation in seminars and the final workshop is mandatory.

Kursens examination

Examination is based on:

- Two reflection papers, including oral presentations.
- Two critical review papers, including oral presentations.
- A report with theoretical and practical application, including oral presentation
- The planning of and participation in a final workshop
- Active participation in seminars

Examinations are scheduled during the academic year only. Two opportunities for re-examination are offered after the end of the course. The student has the right to participate in examinations during the following semester, this however in accordance with the course regulations that apply at the time.

Prov/moment för denna kurs finns i en bilaga i slutet av dokumentet.

Betyg

Betygsskalan omfattar betygsgraderna Underkänt, E, D, C, B, A.

The grades awarded are A, B, C, D, E or Fail. The highest grade is A and the lowest passing grade is E. The grade for a non-passing result is Fail.

The student's performance is assessed with reference to the learning outcomes of the course. For the grade of E the student must show **acceptable** results. For the grade of D the student must show **satisfactory** results. For the grade of C the student must show **good** results. For the grade of B the student must show **very good** results. For the grade of A the student must show **excellent** results. For the grade of Fail the student must have shown **unacceptable** results.

At the start of the course students are informed about the learning outcomes stated in the syllabus and about the grading scale and how it is applied in the course.

Förkunskapskrav

To be eligible for the course the student must have fulfilled at least 30 credits, including 15 credits in research method and/or theory of science, within the Master of Science Programme in Service Management.
