Total number of pages: 543

For a 7,5 credits first cycle course the social sciences faculty recommends 1,000 pages. The page number for this course is 543, and the justification is that several lecturers has wanted to give a few absolutely key texts rather than countless sources. The course also includes five assignments, which will be time-consuming and require considerable extra reading.

*Female authors

Gender balance: 42-58, in favor of male lead authors. This will be addressed the next time the literature list is reviewed.
