Assessment

Learning outcome 1 is examined by the student interacting with other group members on bass, drums, keyboard and guitar during presentations made during classes. The timing of these sessions is decided in consultation between teacher and the student group.

Intended learning outcomes 2-3 are examined in the middle and at the end of the module by the student leading the ensemble on the basis of their own lesson planning/transcriptions/score.

The number of examinations is limited to five.

The course includes opportunities for assessment at a first examination, a re-examination close to the first examination and three further re-sit opportunities for courses completed in the past year (catch-up exam).

If a student with disabilities requires an equivalent examination alternative, this must be requested by the student no later than two weeks before the examination.

The examiner, in consultation with Disability Support Services, may deviate from the regular form of examination in order to provide a permanently disabled student with a form of examination equivalent to that of a student without a disability.

Subcourses that are part of this course can be found in an appendix at the end of this document.
