Course content

The course is structured in accordance with the Common European Framework of Reference for Languages (CEFR). The teaching aims to provide the students with the knowledge and skills required to achieve language proficiency in Swedish equivalent to level A1. The course consists of teaching and practical exercises dealing with Swedish vocabulary, pronunciation and sentence structure. Furthermore, text study and oral exercises are included.

Course design

The whole course is offered as a distance learning course using an online learning platform and digital tools. The course includes scheduled live components. Students are required to participate under these conditions, and to have access to a computer with a web camera and an Internet connection. The department will provide information about the technical requirements.

Assessment

The assessment of the course is based on a camera-monitored written exam (5.5 credits) and a camera-monitored oral exam (2 credits) via Zoom.

The camera monitoring takes place in real time. No recording occurs. Live monitoring is required in order to assess the student's knowledge without the student having access to any aids. The oral exam tests the student's ability to ask and answer simple questions in a familiar area.

The examiner, in consultation with Disability Support Services, may deviate from the regular form of examination in order to provide a permanently disabled student with a form of examination equivalent to that of a student without a disability.

Grading scale includes the grades: Fail, Pass, Pass with distinction

For the grade of Pass on the whole course, students must have been awarded at least the grade of Pass on both the oral and written exams. For the grade of Pass with Distinction on the whole course, students must also have been awarded this grade on at least 5.5 of the course credits.
