Course content

The course deepens the students' knowledge of Ukrainian vocabulary, grammar and stylistic variations through in-depth text analysis. Teaching focuses on practical exercises in reading comprehension, translation and discussion, with an emphasis on identifying stylistic differences in different text genres, analysing grammatical structures and interpreting vocabulary in context. Selected Ukrainian texts – both fiction and non-fiction – provide insights into both language structures and sociocultural contexts. The course further develops the students' ability to critically examine language norms, recognise cultural and historical references and apply linguistic analysis in discussions. Through debates and text-based exercises, the students develop their critical thinking and improve their language skills.
