Course content

The student's oral and written language proficiency is significantly improved in relation to the previous course through practical skills exercises in both speech and writing. The student practises speaking and writing the language in monolingual situations as well as translating between Yiddish and Swedish/English.

The course consists of the following modules:

1. Yiddish Grammar and Text Study II, 7.5 credits
2. Oral and Written Language Proficiency II, 7.5 credits

Course design

The teaching consists of lectures and group exercises. The teaching consists of live streamed online lectures, seminars and 1-3 compulsory written assignments.

The course is offered as a distance learning course using an online learning platform and digital tools. Students are required to participate under these conditions, and to have access to a computer with an Internet connection as well as functioning speakers, microphone and web camera. The department will provide information about the technical requirements.

Assessment

The assessment of Module 1 is based on a camera monitored exam.

The assessment of Module 2 is based on an oral exam via Zoom at the end of the module.

The camera monitoring takes place in real time. No recording occurs. Live monitoring is required in order to assess the student's knowledge without the student having access to any aids.

The examiner, in consultation with Disability Support Services, may deviate from the regular form of examination in order to provide a permanently disabled student with a form of examination equivalent to that of a student without a disability.
