Course content

The course consists of a work placement of five weeks including supervision with regard to the professional role.

Course design

A supervisor will guide the student with regard to the future professional role. The student follows the supervisor's daily work, plans and implements teaching activities and acts as a leader in different situations. Major emphasis is placed on the student's ability, in dialogue with the supervisor and pupils, to develop a professional role as a teacher and his or her own view on this role, as well as their ability, in dialogue with the supervisor, to develop a didactic approach to teaching and the subject. If possible, the student should participate in a parents' evening, in performance appraisals and in a discussion with the principal or equivalent about the organisation, budget, development and management of the school.

Assessment

The assessment is based on the supervisor's assessment and covers learning outcomes 1-10. A visit and assessment will be made by a visiting lecturer from the programme. The assessment at the visit covers learning outcomes 1-10.

The supervisor's assessment and documentation from a visit including a three-party dialogue are documented in an assessment form.

The student has, in addition to the ordinary placement period, the right to re-take the placement over two (2) periods. In total, the student can therefore undertake three placement periods in a course.

The examiner, in consultation with Disability Support Services, may deviate from the regular form of examination in order to provide a permanently disabled student with a form of examination equivalent to that of a student without a disability.

Subcourses that are part of this course can be found in an appendix at the end of this document.

Grades

Marking scale: Fail, Pass, Pass with distinction.

For a grade of Pass on the whole course, the student must have been awarded at least this grade in the assessment of the placement. For a grade of Pass with Distinction, the student must have been awarded this grade for the placement.

Entry requirements

To be admitted to the course, students must have at least 120 credits from subject studies and 15 credits from core courses in educational sciences.

Further information

1. The course is offered at the Department of Educational Sciences, Lund University.
2. The credits allocated for course content that in whole or in part is commensurate with another course can only be credited once for a degree. For further details, see the current registration information and other relevant documentation.
