*Degree Project - New Venture Creation, 15 credits*  
**Avancerad nivå / Second Cycle**

---

### **Fastställande**

Kursplanen är en historisk, äldre version, faställd av Studierektor vid Företagsekonomiska institutionen 2016-11-21 och gällde från och med 2016-11-21, vårterminen 2017.

### **Allmänna uppgifter**

The course is a master level course and a compulsory part of the masters program, Entrepreneurship.

The course is offered in English. Students must therefore be able to communicate in English both orally and in writing.

#### *Huvudområde*

Entreprenörskap

#### *Fördjupning*

A1E, Avancerad nivå, innehåller examensarbete för magisterexamen

### **Kursens mål**

A passing grade on the course will be awarded to students who:

#### **Kunskap och förståelse**

- An understanding of the different steps included in conducting an academic study
- Specialized knowledge about the range of methods available for conducting research in the field of entrepreneurship
- Knowledge and understanding of the theoretical research area dealt with in the degree project as well as insight into current research and development work

#### **Färdighet och förmåga**

- Ability to conduct an independent academic study, by identifying and formulating issues autonomously and to plan and, using appropriate methods, undertake advanced tasks within a predetermined time frames.

- Ability to draw practical implications for own and others new venture efforts based on research results
- Ability to orally and in writing present the findings and conclusions and the knowledge and arguments on which they are based to specialist and non-specialist audiences
- The skill required to participate in research and development work or to work in other advanced contexts

### **Värderingsförmåga och förhållningssätt**

- Ability to identify the personal need for further knowledge and take responsibility for his or her on-going learning
- Insight into the possibilities and limitations of research, its role in society and the responsibility of the individual for how it is used

### **Kursens innehåll**

In the course the students will independently, in smaller groups, design and carry out their own academic study. This includes identifying a research problem inspired by their own practice of entrepreneurship, searching for and selecting relevant literature, learning about the different methodological challenges and considerations included in conducting an academic study, collecting and analysing relevant empirical data, and presenting orally and in writing their theoretical and methodological approach, findings and conclusions together with the knowledge and arguments on which they are based. As part of the learning process, the students are also expected to read and discuss the work of other students that attend the course.

### **Kursens genomförande**

Teaching takes place through lectures, seminars and direct supervision. In the beginning of the course there will be a series of lectures aimed at providing students with knowledge about the different steps included in conducting an academic study and common methods available for conducting research in the field of entrepreneurship. Thereafter the students will design and conduct their own academic study, where teaching will take place primarily through supervision and discussion independently or in smaller groups of students. Each student or group will have at least one supervisor that is responsible for discussing the study throughout the process.

### **Kursens examination**

Examination is based on three main parts. First, students are assessed by an individual assignment where they compare and evaluate the strengths and weaknesses of methods available for conducting research in the field. Second, students are assessed by their written and oral presentation of their academic study. Third, students are assessed by an individual assignment where they will identify practical implications for own and others new venturing efforts based on research results. The final grade is based on the score on each assignment.

See appendix including examination sessions. (Will be attached to the curriculum automatically in the system).
