Field of Psychology applies from autumn semester 2023**
Literature established by Management group for the International Master
Programme in Psychology on 2023-05-11 to apply from 2023-08-28

See appendix.

Literature for PSYN80, Empirical Work in the Fields of Psychology, 7.5 credits

The course literature consists of current research articles selected from reputable peer reviewed journals. The choice of literature depends on each student's methodological approach and is judged based on how well it is related to the study purpose.

Review-papers and book chapters do not constitute sufficient literature on which to base a study: relevant original research articles must be included, available through the library databases.
