

Literature for VMFB39, Climate and Health in a Global Perspective applies from the autumn semester 2025

Literature established by The Master's Programmes Board on 2025-02-03 to apply from 2025-02-03

The latest edition of the literature is always used in the course.

Books

Levy, B. S., Patz, J. A., & McStowe, H. L. (Eds.). (2024). *Climate Change and Public Health*. Oxford University Press.

Additional literature

A small number of academic journal articles and national policies will be specified. These are specified and distributed on the course page in the learning platform.
